

Paediatric Emergency and Clinical Healthcare Scenarios (PEaCHS)

FRIDAY 4 FEBRUARY 2022 | NARROGIN

This Rural Health West CPD workshop is a one-day workshop in paediatric emergency scenarios and skills. This course will give delegates real-life examples and the opportunity to manage sick or injured children in a safe environment.

The workshop content will include

- Hands on simulation: practice common scenarios and structured care
- Short presentations by experienced paediatric emergency physicians
- Comprehensive handbook of lecture materials and practical skills
- "Resuscitation reminders" card for your ID badge clip

This workshop is approved for the Rural Procedural Grants Program. Please contact your relevant college before attending to ascertain your eligibility.

Cost:

Doctors: \$440.00 (Inc. GST)

Nurses: \$350.00 (Inc. GST)

Eligibility: GP Obstetricians, ED doctors and nurses and GP's. Priority is given to those working in the local region.

Registration: [Click here](#) to register your interest for the workshop. All successful applicants will receive written confirmation and an invoice for payment.
