

Rural Emergency Advanced Clinical Training (REACT+)

THURSDAY 10 AND FRIDAY 11 FEBRUARY 2022 | PERTH

Two-day emergency skills assessment course

- ✓ **Formal adult and paediatric ALS, AED and Trauma assessments**
- ✓ **Rural Procedural Grants Program up to \$4000**
- ✓ **The Royal Australian College of General Practitioners**
- ✓ **Australian College of Rural and Remote Medicine**
- ✓ **Successful completion of REACT+ course is accepted as evidence towards meeting the WA Country Health Service (WACHS) Emergency Department (ED) credentialing requirements (ED workshops component)**

Increasing access to high quality emergency education, Rural Health West invites all medical practitioners to the REACT+ course.

Supporting Western Australian medical practitioners to expand their emergency skills and knowledge, the REACT+ course will provide greater confidence in managing emergencies in rural environments.

The REACT+ course includes major trauma and cardiac arrest in both children and adults as well as associated lifesaving procedural skills. It is facilitated by experienced emergency physicians and is highly interactive. Participants are predominantly involved in practical skill stations and simulated scenarios.

This workshop is approved for the Rural Procedural Grants Program. Please contact your relevant College prior to attending to ascertain your eligibility.

Rural Health West is required to provide assessment results to the relevant WACHS Regional Medical Director.

Cost: \$2,420 (Inc. GST)

Eligibility: All medical practitioners are welcome to register with priority given to currently practising rural and remote medical practitioners.

Registration: [Click here](#) to register your interest for the workshop. All successful applicants will receive written confirmation and an invoice for payment.
